Subject: Re: Request for ZOM

Hi Carl,

I didn't receive any attachments in this email.

Matt

Matt,

Please find attached the following:

[1] A letter (PDF format) to ASEPA requesting mixing zones for DO, turbidity, and light penetration from GDC, the consultants (Steve Costa and Karen Glatzel) who prepared the NPDES permit applications for COS and StarKist. Please print this letter and consider it a formal request to ASEPA.

Then, based on the above formal request, please have each of the following letters prepared on ASEPA letterhead, and Faamao can sign for Dr. V. and pdf or fax copies of the signed ASEPA letter to me.

[2] A draft letter to StarKist from ASEPA granting the request (in Word format) with the appropriate required language

[3] A draft letter to Samoa Packing from ASEPA granting the request (in Word format) with the appropriate required language

What this is all about has been discussed between Peter, Sara Greiner (permit writer), myself, and GDC. This is the last step, and with no disrespect to you or Elena, there is no need for further review or discussion and I ask that you please take care of this toot suite.

Thanks,

-Carl
